

[The Alfred site map](#)

**Some of The Alfred outpatient clinics are moving**

The next stage of The Alfred Centre is opening on 17 May 2010 and this involves the re-location of some of the Specialist Consulting Clinics.

Patient appointment letters will indicate where the clinic they are attending is located. The clinic information at [www.alfred.org.au](http://www.alfred.org.au) - under the "For GPs" tab and "Alfred Health Clinics" - will also have a full list of locations.

There is a small distance between the current outpatient location to The Alfred Centre (Corner of Punt Road and Commercial Road). Given this could be an issue for those with mobility issues, please ask your patients to check their letter before presenting for their clinic appointment.

A map of the site, showing the location of The Alfred Centre and The Alfred, will be available on the *News and Events* page of "For GPs" on the website.

Please note that radiology is located in both buildings, and each patient letter will indicate which location the patient is to attend.

If your patient is unsure of the clinic location they can call 9076 2025 for clarification.
